Benyamin Ghanbari

Iran , Tehran | 09120893951 | G-Mail | Github

Experience

Aug 2023 – Nov 2023
Data Analysis Internship At Quera
Data Analysis Intern skilled in scraping, SQL, probability, statistics, machine learning, Power BI, and data warehousing. Contributed to two team projects, demonstrating strong analytical and collaborative abilities

Projects

IranKetab.ir [GitHub]
Collaborated on a team project to scrape 1,000,000+ books from iranketab, structuring the data into a database. Utilized Streamlit for impactful data visualization and conducted hypothesis testing and statistical analysis, contributing to informed decision-making.

Litopia [GitHub]
Contributed to a collaborative team project analyzing a company's product and market dynamics. Conducted comprehensive competitor product scraping, implemented statistical analytics, utilized machine learning, and employed Power BI for effective visualization and dashboard creation. Established data warehousing and databases to enhance company insights.

Tools

Python | Sql | Power Bi | Pandas | Numpy | DAX | Git | Sckit-learn | BeautifulSoup | Matplotlib | Seaborn

Education

Sep 2015 – Jun 2021
Mathematical Physics – Middle and High School
Allame Helli School

2022 - Current
Computer Science-Undergraduate
Islamic Azad University Central Tehran Branch

Skills

- Team Work
- Data Analysis
- Data warehousing
- Statistics and Probability
- Bi
- Data-mining
- Problem-Solving
- Data Base
- Data Visualization
- Machine Learning

Languages

English: working Proficiency
Persian: Native
